VISHNU VARRA

Manager - CCaaS, Conversational AI and Agentic AI

+91-8148208897 | vishnureddy4545@outlook.com | https://github.com/vishnureddy45 | https://www.linkedin.com/in/vishnureddy45

Summary:

Customer Experience and Cloud Contact Center Developer with **10+ years of experience** delivering **AI-powered CCaaS solutions** using **Amazon Connect, Machine Learning, Generative AI, and Agentic AI**. Proven expertise in building intelligent voice and chat journeys, predictive routing, conversational automation, and real-time speech and sentiment analytics. Strong track record of driving innovation through **high-impact POCs, enterprise implementations, and executive demos**, enabling scalable, secure, and customer-centric customer service transformations.

Technical Proficiency & Expertise

☁️ CCaaS Platforms	Amazon Connect, MS DCCP, Google CCAI & Omilia
🧠 Agentic AI & Machine Learning Expertise	AWS Bedrock, AWS Nova sonic, AWS Lex, Claude, Machine Learning, Statistics, Hyperledger Fabric, Data Generation, Data Extrapolation, Data Preprocessing, Data Visualization and Communication
🛠️ AWS Arsenal	Amazon Connect, Lex, EC2, S3, ELB, Lambda, IAM, Transcribe, Comprehend, Kendra, Translate, Managed Blockchain, Route 53, VPC, Cloud Front, Cloud Watch, Cloud Trail, Cloud Formation, DynamoDB, Bedrock, Sage maker
☁️ Cloud	Amazon Web Services, MS Azure AI Services & MS DCCP
🚀 Programming Languages	Python, Java, R, HTML
CRM Integrations	Salesforce Service Cloud Voice, MS Dynamics 365
📦 CI/CD	Docker and Code Pipeline
📜 Version Control	Code Commit and GIT
📊 Monitoring & Observability	Splunk, ELK
🗄️ Databases	DynamoDB and SQL
💻 Operating Systems	Windows Family, Ubuntu, Linux

Career Roles & Responsibilities

- Architected and developed AI-driven CCaaS solutions using Amazon Connect, integrating Generative AI, Machine Learning, and AWS Bedrock to enable predictive queue intent, intelligent routing, conversational AI, AI Agents and automation.
- Designed and implemented speech-to-speech and real-time voice AI POCs using AWS Nova Sonic, including live transcription, sentiment analysis, call-reason,Multi- Intent prediction, multi model and multilingual support.
- Led end-to-end POCs and customer demos showcasing Amazon Connect + AI capabilities, directly influencing platform selection, deal wins, and strategic client decisions.
- Architected enterprise-scale Amazon Connect solutions, including advanced contact flows, Lambda integrations, Dynamic Language Prompts, inbound/outbound journeys, chatbots, and omnichannel (voice + chat) customer experiences.
- Enabled Cloud Contact Center as a Service (CCaaS) operating models, helping enterprises modernize customer engagement through scalable, cloud-native, AI-powered contact center architectures.
- Delivered CI/CD-driven deployments of Amazon Connect configurations and AI services across multiple global regions, improving release speed, consistency, and reliability.
- Led implementation of AI/ML use cases such as conversational bots, predictive analytics, personalization, sentiment analysis, and real-time insights for agents and supervisors.
- Played a key role in RFP responses, providing solution architecture, technical narratives, POC strategies, effort estimates, and platform capability mapping for Amazon Connect and AI services.
- Designed and integrated backend APIs within contact flows, built on modern, open-source, cloud-agnostic architectures.

Experience:

Organization	Role	Duration
PwC	Manager – CCaaS, Conversational AI and Agentic AI	August 2025 - Present
Accenture	Management Consulting Delivery Specialist	Feb 2021 – Aug 2025
Wipro	Project Engineer	May 2017 – Feb 2021
Team ware solutions & Talent capital [Client: TCS]	Software Engineer	Sep 2015 – Apr 2017

Certifications:

- AWS Certified Machine Learning Engineer - Associate
- AWS Certified AI Practitioner
- AWS Certified Cloud Practitioner
- Amazon Connect Communications Specialist

Sensitivity: Internal & Restricted

- Amazon Connect Developer Specialist

Project Details:

Project Name	Project Significance	Platform & Technologies	Role
Agentic AI – Customer Service Automation [Industry – BFSI - Banking, Financial Services, and Insurance]	Designed Agentic AI workflows to autonomously handle customer service tasks, decision-making, and escalation, improving response accuracy and operational efficiency.	Agentic AI, AWS Bedrock, Generative AI, AWS, Amazon Connect, Lambda, APIs	Manager and Technical Lead
Gen AI based Predictive Queue Intent for Omnichannel Routing [Industry – BFSI - Banking, Financial Services, and Insurance]	Built an AI-driven Predictive Queue solution using queue descriptions and GenAI to intelligently route voice and chat interactions within Amazon Connect.	Python, Amazon Connect, AWS Bedrock, Lex, GenAI, Voice & Chat, Lambda	Manager & Lead Developer
Contact Center Transformation using Amazon Connect (CCaaS) [Industry – BFSI - Banking, Financial Services, and Insurance]	Enabled CCaaS adoption by designing end-to-end voice and chat journeys, virtual assistants, chatbot integrations, backend APIs, and supporting RFPs and POCs.	Amazon Connect, Lex, CCaaS, Chatbots, Lambda, AWS AI Services, S3, DynamoDB, CloudWatch, API Gateway	Solution Consultant
SCV + Amazon Connect Voice Integration [Industry – BFSI - Banking, Financial Services, and Insurance, Software / Design & Engineering]	Delivered enterprise-grade voice solutions with advanced contact flows, Lambda integrations, Dynamic Language Prompts, inbound DID handling, and outbound Dynamic Caller ID.	Amazon Connect, Lambda, SCV, Voice Architecture, S3, DynamoDB, CloudWatch	Technical Lead
Self-Service FAQ Bots [Industry – BFSI]	Designed and implemented AI-powered self-service bots to deflect calls and improve first-contact resolution.	Conversational AI, Chatbots, NLP, Amazon Connect, Lex, Lambda, S3, DynamoDB, CloudWatch	Lead Developer
Amazon Q – Self Service Enablement [Industry – BFSI]	Implemented Amazon Q-based self-service capabilities to deliver intelligent, contextual responses for customer queries.	Amazon Q, Generative AI, Amazon Connect, Lex, Lambda, DynamoDB	Solution Consultant
AI-Driven Social Sentiment Monitoring for Proactive CX Management [Industry – BFSI]	Built an ML-based system to identify high-impact customers generating negative social sentiment, enabling proactive engagement and improved CX through personalization and insights.	Machine Learning, Sentiment Analysis, Web Scraping, AWS, Data Analytics, Data Generation, Data Extrapolation, Data Preprocessing, Data Visualization and Communication	Solution Consultant
Microsoft Digital Contact Center Platform (MS DCCP) [Industry – Insurance]	Delivered chat and voice capabilities with real-time insights, historical dashboards, and analytics to enhance agent and customer experience.	MS DCCP, Voice & Chat, Analytics, Dashboards	Lead Developer
Google Contact Center AI (CCAI) – POC [Industry – BFSI]	Implemented a POC showcasing AI-powered virtual agents and intelligent call handling for customer	Google CCAI, Conversational AI, NLP	Software Developer

Sensitivity: Internal & Restricted

	support use cases.		
Hotel Reservation Voice AI POC [Industry – Hotels & Lodging]	Developed a voice-based hotel reservation Proof of Concept using real-time speech-to-speech interaction for natural customer conversations.	AWS Nova Sonic, Voice AI, Speech-to-Speech, Amazon Connect	Lead Developer
Letter Fulfillment using Hyperledger Fabric [Blockchain] [Industry – BFSI]	Built a multi-organization blockchain network with shared ledger and smart contracts to enable secure, real-time letter fulfillment and reconciliation.	Hyperledger Fabric, Blockchain, Smart Contracts	Software Developer

Educations

B. Tech (Electronics and Communication) SRM University, Chennai. [2010] - [2014]

Interests - Football, Cricket, chess

Personal Details

Full Name	Vishnu Vardhan Reddy Varra
Current & Permanent Address	Flat 201, classic Towers, Prakash Nagar, Kadapa, Andhra Pradesh - 516001
Mobile Number	+91- 8148208897
Languages Known	English, Telugu, Tamil & Hindi
Reference(s)	On request

Sensitivity: Internal & Restricted
